CLAIM

The ornamental design for a jewelry storage container, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the exterior of our new container.

FIG. 2 is a front elevation view of our new container.

FIG. 3 is a right side elevation view of our new container.

FIG. 4 is a left side elevation view of our new container.

FIG. 5 is a top plan view of our new container. The bottom plan view of our new container is a mirror image of FIG. 5.

FIG. 6 is a perspective view of the interior of a first embodiment of our new container.

FIG. 7 is a perspective view of the interior of a second embodiment of our new container, where earring bars are removably mounted on metal strips on the inner surface of the door.

FIG. 8 is a front elevation view of an earring bar used with the embodiment of FIG. 7.

FIG. 9 is a back elevation view of the earring bar of FIG. 8.

FIG. 10 is a top plan view of an earring bar of FIG. 8.

FIG. 11 is a bottom plan view of a new earring bar of FIG. 8; and,

FIG. 12 is a right side view of the earring bar of FIG. 8. The left side view of the earring bar of FIG. 8 is a mirror image of FIG. 1.

The broken lines in the drawing do not form a part of the claimed invention.
